

ROTARY TABLETING MACHINE FETTE P3000

Nr. Stations:	37	45	55
Punch type:	EU1”D	EU19 B	EU19 BB
Tablet Ø max. :	25 mm	16 mm	13 mm
Filling depth max :	22mm	18 mm	18 mm
Output max h:	220.000	390.000	450.000
Pre-compression max.:	20 kN	20 kN	20 kN
Compression force max:	80 kN	80 kN	80 kN

High speed rotary tableting machine with three compartment feeding system Fill- O- Matic easy to disassemble, the machine can produce single or double layer tablet.

Central instrument control panel with manual adjustment of tablet height, filling depth and upper punch penetration.

Pre-compression and main compression are adjustable independently via hydraulic pump with a gas compensator.

The machine can be equipped with pressure reading and automatic dosing adjustment via compression force.
